

Cordillera

CORDILLERA CHAMPAGNE

CORDILLERA EARTH

Cordillera, the most beautiful mountain range of the Andes, world known among those interested in mountain climbing.

According to the desires and needs of designers and architects around the world, we added to the Mathios Stone product line, our new product Cordillera in modern earth colors Earth, Champagne and Gray, with unique advantages.

It is composed of rectangular shapes of dry stack ledge stone, and the ease of installation – since it does not require joints-combined with the combined with a price advantage, are some of its strong points. Ideal solution for a wide variety of applications in commercial centers, houses, buildings and places of high aesthetics.

We are certain that the new product Cordillera will win the acceptance of all the professionals.
